An epitome of Commissioner Garfield's letter is as follows:

"Mr. Tuttle, president of the Boston & Maine, is reported to have said: The Boston & Maine railroad for years, except in certain sparsely settled sections of the country, has joined with roads on which oil traffic originates in through rates and every shipper and receiver of oil has been treated exactly alike."

"As shown in chap, Ill, of the report, the Boston & Maine states, in a letter to the bureau, that the road does not prorate an a portion of its system, giving a list of 394 stations affected. Some of the cities to which that road does not prorate are Lowell, Lynn, Lawrence and

Rheumatism is curable if the proper treatment is used. Liniments, plasters and all local applications may relieve the pain for a short time, but no one ever heard of their permanently curing a case of rheumatism. The only way to cure rheomatism is the Uuric-O way. Neutralize the rheumatic acid and drive it away from the system. That is what Uric-O does. No matter what is the kind or character of the rheumatism, it is all caused by the same rheumatic poison. Lumbago, muscular or articular rhenmatism yields at once to Uric-O. The Red Cross Pharmacy is the home of Uric-O in Barre and they can tell you all about its wonderful virtues and the many cures it has made right here in your own town. "In this century of civilization and progress," he added, "when the gospel of the 'square deal' is on the lips of men, our political adversaries ought at least to fight with the common fairness of the prizefighter. They ought not to strike below the belt."

The senator had arsen to reply fur-ther to assertions made in the news-

Memorandum to President.

He asked to have put in the Record letter he had addressed to Chandler sking for any letter he. (Chandler) ight have written on which soel charges could be based. After his let-ter to Chandler was read Chandler's re-ply was also presented for reading with his memorandum to Loeb dated April

Rheumatism has long been regarded as a trouble which, while it might be painful, was not necessarily dangerous. Very few persons, it was thought, ever died from rheumatism. Recent investigation among scientists has proved, however, the utier fallacy of such a belief. Three-fourths to seven-eighths of the view clause with the minimum amount of the provided the provided

To this was added direction to Loco to hand this to the President privately Then followed a letter from Chandle to Bailey, dated Wednesday, saying the surances as to Bailey's attitude in the memorandum, as he had not seen Bailey when it was written. Chandler added that he saw Tillman at 9.15 p. m. April 11 and Tillman told him neither he nor Bailey were in the railroad game, Later that evening he saw the President and so advised him. Extracts from Chandler's diary were also read to the same

Bailey answered the New York Tri bune charges that a statement of allega-tions against his fidelity made by Chand-ler had been circulated by Democratic senators. He said he had made inquiry who was circulating the memorandum gainst him, "and if it is desired I can

call the name of the senator to whom the President showed it himself." Even granting Chandler had made charges against him, he went on, "Would it lie in the mouths of these people to assail me with a statement like this?"

Recalling that Chandler had been de-counsed from the White House as a liar, Bailey proceeded to show the absurdity of the assertions that the President loubted his good faith when three days after the Chundler memorandum he, Bai-ley, was urged to attend a conference on the rate bill arranged by the Presi-dent with the attorney general. "I have no word," he added, "to ex-

press my contempt for the one who treats with another whom he suspects of treachery." No reply was made from the Repub-lican side to Balley's statement.
